INTERNSHIP COMPLETION CERTIFICATE

This is to certify that Mr. Govardhan S, pursuing Bachelor of Technology in Information Technology (Final Year) at University College of Engineering (UCE), BIT Campus, Anna University, Tiruchirappalli, has successfully completed his Internship with Net7 Technology Solutions India Private Limited from 1st June 2026 to 30th June 2026.

During the internship tenure, he actively participated in technical software-based activities, including Full Stack Development, HTML, Artificial Intelligence, and related technologies. The internship was conducted in a hybrid mode, with the first 15 days completed through online training and the remaining 15 days through offline practical sessions.

He gained hands-on experience in software development concepts, web technologies, AI-based applications, project implementation, and technical problem-solving under the guidance of experienced professionals. He demonstrated enthusiasm in learning emerging technologies and contributed effectively to assigned tasks and team activities.

His performance during the internship period was found to be sincere, disciplined, and satisfactory. He exhibited a strong willingness to learn, adapt, and apply technical knowledge in practical environments.

We wish him all the best in his future academic and professional endeavors.

INTERNSHIP OFFER LETTER

Dear Govardhan,

With reference to your application and subsequent interview for an internship, we are pleased to offer you an appointment as an Intern - Software Developer at Net7 Technology Solutions India Private Limited.

Your internship is structured around a comprehensive technical and practical learning framework designed to build expertise in advanced software technologies. The terms and conditions of your engagement are detailed below:

Duration & Timeline: The internship will be for a duration of one month, commencing from **1st June 2026** to **30th June 2026.**

Training & Learning Objectives: During this program, you will undergo technical training in Full Stack Development, HTML, Web Technologies, and the implementation of Artificial Intelligence (AI) based systems.

Execution Mode (Hybrid): The internship will follow a structured hybrid delivery model. The first 15 days will comprise online instructional modules and concept building, followed by the remaining 15 days of offline practical implementation, project development, and technical problem-solving at our corporate development office.

Reporting & Supervision: You will work under the direct supervision and guidance of our Senior Software Engineering team and the Technical Director. Performance evaluations will be carried out periodically.

Code of Conduct: You are required to strictly adhere to the professional standards, data security policies, and confidentiality rules established by Net7. Any proprietary frameworks shared must remain exclusively within the company network.

Financial Terms: This is a learning-and-development-focused academic internship module. No stipend or financial compensation will be provided, and this training engagement does not constitute a legal obligation or guarantee for permanent employment with the organization.

Please signify your acceptance of this offer by signing and returning the duplicate copy of this letter. We welcome you to Net7 and look forward to a mutually rewarding educational tenure.
